> 3. State the number of bushels of rye, wheat, corn, oats, barley, buck wheat, peas and beans, Irish potatoes, pounds of wool and pounds of tobacco, if any were produced, the value of orchard product in dollars, the number of pounds of butter or cheese, tons of hay, bushels of clover seed and other seeds, pounds of hops, pounds of cane sugar, gallons of molasses, pounds of honey and beesway and the value of all home made manu-

If the answers to these questions are prepared previous to the visit of the marshal, the information obtained will be more likely to be correct than if delayed until the marshal caffs, and a few minutes will be sufficient when otherwise consid erable time will be required Let every farmer and stock grower, therefore, take the first favorable opportunity to gather the facts necessary to make a return and

be ready whenever called upon. The other questions relating to persent ages, births, deaths, marriages, profess ions, occupations and trades, can readily be answered by any intelligent member of the family-only requiring care that the dates be correct.

"Sonny, does your father take a ne per?" "Yes, sir, two of them; one belongs to Mr. Smith and the other to Mr. compson. I hooks them off the stoop. "How many are there ev ye's down here?" shouted an Irish boss to some up here," he said.

THE wheat harvest is near at hand and many farmers as well as the business pubfic are speculating as to the probable price it will bring when the new orop is fairly in the market. The price will be affected by several important facts, among which, are, the foreign demand, the condition of our pational finances, and the condition and amount of grain finally secured the coming harvest. There is undoubtedly a large breadth of land sown to wheat, and if the crop is not shorten-

ed by drough or otherwise, we will have as large a yield as we have enjoyed for many years past. Greater care than usual was taken by the farmers "last fall in selecting their seed, particular attention be-THE NEW RAHLBOAD PROJECT .- In ing given as to the quality and kind of speaking of the proposed railroad be- seed sown, this should never be neglect-tween this place and South Bend, the ed if large yields per acre and good wheat Register, after copying an item of ours, are expected. There is one subject in reference to the advantages such a route would be to the manufactories of however, that has been neglected, a least, if not ignored by a majority of our South Bend is bound to have a connect farmers, which invariably results in loss tion with the roads south of her in less to them. I refer to cleaning their wheat road at Pivmouth has always been talked before taking it to the market or to the of as the objective point. But the neces mill for grinding for home use. In all Wall & Window Paper sity for railroad communication with the large grain markets of this country, as we'l as in Europe, wheat sells by its and we venture to assert that South Bend grade, or in other words on its merits, if will do her share towards constructing a sound and clean, it is graded No. 1- Tobacco road to that point, and use her influence thereby bringing the highest price-if sound, but dirty, it is graded No. 2 or No. 3 according to the amount of dirt in it, and a corresponding deduction in price. In all our surrounding countles in seeing who can bring the best and cleanest grain to market and obtain the first grade as well as the highest price. and any person can see that no preducer would like to be told by the inspector that his wheat is No. 2 o No. 3 and his neighbors No. 1 and that he must take a lower price. Then let rating committee omitted nothing which every farmer clean his wheat. If he has would please the eye and gratify the not already got the facilities, they are easily obtained on the most favorable terms. No farmer can afford to be with out a good farning mill for a single year, as it will not only pay for itself the first for the appetite; and it should be noticed year, but save the reputation of the owner, as being a good farmer. Who would
